INTERNATIONAL CONFERENCE ON "ENERGY TRILEMMA: EMERGING LAWS, TRENDING SOLUTIONS AND EXPLORING THE WAY FORWARD"

March 10-11, 2022
Institute of Law, Nirma University

About the University

Nirma University was established in 2003 as a statutory university under Gujarat State Act, and as an initiative of the Nirma Education & Research Foundation (NERF). The university has been recognized by the University Grants Commission (UGC) under Section 2(f) of the UGC Act. Nirma University has been accredited Grade "A" by NAAC in 2015. The university is a Commonwealth Universities Association member, and also of the Association of Indian Universities. Padmashri Dr. Karsanbhai K. Patel, Chairman, Nirma Group of Companies and Chairman, NERF is the president of the university.

About the Institute

Institute of Law was set up under the aegis of Nirma University in the year 2007 with a vision to promote excellence in the field of legal education and to fulfil the ever-increasing demand of quality legal professionals for a growing legal world. In a short span of time Institute of Law, Nirma University (ILNU) marked its distinct place in the legal education map of the country. At present, ILNU offers B.A.,LL.B.(Hons.) and B.Com.,LL.B.(Hons.) – five year integrated programmes, one year LL.M. programme in different areas and Doctoral Programme leading to Ph.D.

Institute of Law has been conferred with "Institutional Excellence Award" by The Society of Indian Law Firm (SILF) and Menon Institute of Legal Advocacy Training (MILAT) in September, 2012 for its contribution for the innovative clinical education in the country.

About the Centre for Energy Law, Policy and Strategy (CEPLS)

The Centre for Energy Law, Policy and Strategy (CEPLS) seeks to provide a venue for scholars and practitioners to engage with energy related law, policy and strategies through conferences, workshops, lecture series, discussion forum; and its research papers and database. It shall host symposia collaborating with eminent scholars and legal practitioners from energy sector. The Centre envisions deliberations with leading practitioners and academicians on contemporary and recent issues of energy law, policy and strategies. The Centre aims at encouraging research and publications, and focus on providing a platform for student training and professional continuing education, which would constitute a significant contribution to their career development.

About the Conference

Energy sustainability is not just an opportunity to transform societies and grow economies, it is also a necessity – a prerequisite to meet growing energy demand in many parts of the world and to reduce the global carbon footprint.

In order to build a strong basis for prosperity and competitiveness, individual countries must balance the three core dimensions of what Oliver Wyman and the World Energy Council have defined as the energy trilemma: affordability and access, energy security and environmental sustainability.

With this aim, the conference aims to promote and brainstorm ideas on how to maintain a balance between security, affordability and sustainability in accessing and using energy in our daily lives. The discussions and brainstorming will be to identify the legal issues involved in dealing with energy trilemma, exploring legal solutions for the same and chart out a roadmap of legal steps in resolving the energy trilemma through legal means which is a major task before the international community in general and the developing countries including India, in particular.

The Conference is planned to be a platform for congregation of experts, managers, policy makers, academicians, students and researchers to brainstorm and suggest ways to find viable and workable solutions for solving the vexed problems of security, affordability and sustainability of generation and consumption of energy for the welfare of the mankind.

Objectives of the Conference

1. To create awareness amongst students and academia regarding the problem of Energy Trilemma, its relevance and to initiate a dialogue amongst various stakeholders.
2. To discuss the significance and legal issues concerning the World Energy Trilemma Index.
3. To suggest policy measures to develop a legal framework on tackling Energy Trilemma.

Themes of the Conference

Energy Trilemma: Emerging Laws, Trending Solutions and Exploring the Way Forward

The possible sub-themes for the papers could be:

- **Energy Security: Issues and Challenges**
- **Energy Sustainability: Issues and Challenges**
- **Energy Equity: Issues and Challenges**
- **India's Energy Sector: Contemporary Challenges**
- **Any other sub-theme relevant to the main theme of the Conference**

Participation

The conference is open to undergraduate / postgraduate students, Ph.D. Scholars and Academicians / Professionals and to bring together policy-makers, managers, various other stakeholders and dedicated organizations in the relevant fields for a constructive dialogue on the various aspects of the theme.

Participation shall be subject to COVID-19 protocols.

Any interested person can also attend the Conference, without paper presentation.
