About Gujarat Maritime University

Gujarat Maritime University (GMU) is an endeavor by the Gujarat Maritime Board, Government of Gujarat to provide a fillip to the maritime sector by bridging the knowledge gap within the industry. GMU has been established to serve the global maritime community by producing educated and well-trained professionals in the maritime domain. It aims to enhance and increase the human capital and capacity of the maritime industry both in India and across the globe. To realize these objectives short-term online course on International Maritime Law has been designed.

About KIIT School of Law

KIIT School of Law (KLS) was established in the year 2007 by the KIIT deemed to be University to meet the growing demand for legal professionals in the wake of globalization and rapid expansion of India's Economy. Since then, KLS is contributing to the legal fraternity. It is an acclaimed Institution today with International Recognition. Since its inception, KLS has been appreciated for providing quality legal education and legal skills training to students drawn from across the nation and abroad. The School is presently ranked 10th in India for 2021, as per the ranking list released by the National Institutional Ranking Framework (Ministry of Human Resource and Development, Govt. of India).

5 Days Certificate Course on International Maritime Law

Introduction

Maritime Law is a unique field of law that significantly impacts people's everyday lives. No country can work in isolation, and maritime law enables countries to connect in today's world. As 90% of global trade depends upon ships, a great deal of emphasis has to be laid on sea regulations. It is a little-known fact that a vessel can be operated from one country, flagged for operational reasons to another, and then has crew from another nation. This makes the domain of Shipping law more intricate yet exciting to pursue as a professional. Increasing work in the maritime space for reasons like ship arrest, cargo claims, etc., provides excellent opportunities. Five days Training Program is aimed to cover a wide range of areas related to maritime law, including Shipping Contracts, Marine Environment, Admiralty law, and Maritime Dispute Resolution.

Significance of the Course

To make the participants aware of the legal framework governing the maritime sector. It will equip participants with knowledge on contemporary and advanced issues related to the maritime industry. The training course would be ideal for students and professionals aiming to specialize in the shipping and maritime domain.

Course Detail

Target Audience

The program is designed for anyone who has a passion for shipping and the diverse legalities that ships need to comply with, not just limited nationally but on an international level. The course is also aimed to attract those who are already working in the industry but strive to get on to a fascinating and challenging role.
