Research Highlights (Max. 100 words):

In my doctoral research I have highlighted the issue of intellectual property rights of farmers, which is an unexplored area under intellectual property regime. I have explored the possibility of protection of farmers' intellectual property rights under fundamentals of intellectual property and analyses Indian *sui generis* law on farmers' intellectual property. The Protection of Plant Varieties and Farmers' Rights Act, 2001 and the Biological Diversity Act, 2002 are the legislations which I have critically analysed in my doctoral research in the light of various International legal instruments.
